

IIPM's centre in Ahmedabad is one of the youngest centres amongst all the IIPMs. It was set up in the year 2004 by Planman. Being a part of the IIPM family of institutions, which have earned nationwide reputation for academic excellence, IIPM in Ahmedabad strives hard to maintain international standards in all of its academic endeavors.

IIPM in Ahmedabad is highly credited by the academic fraternity for its strong corporate outlook and starkly different academic curriculum. The institute draws its strength from its focused approach in various economic subjects as a core curriculum in management, which is ignored by many of the management institutes today. It has also shown a new dream to the students – a dream to think big. This has simultaneously

made students join the institute as they have also realised the fact that they need to develop employable skills to get ahead in their careers. The institute is located in the heart of the city, off C G Road, which is easily accessible by one and all. The distinct blue glass IIPM Tower is visible from quite a distance.

### Infrastructure:

IIPM in Ahmedabad operates out of its 5 floor IIPM Tower – a landmark structure by all definitions, which provides around 20, 000 sq. ft. of built up infrastructure, comparable to any of the IIPM Towers around the country. The basement of the IIPM Tower has the cafeteria and the recreation zone for the students. The classes and other academic centres are spread across in the top four floors of the building while the administrative block is in the ground floor. The entire tower is Wi-Fi enabled, making internet access easy for the students from any corner of the campus. The computer drome, conference room with latest presentation

gizmos, well stocked library with over 10, 000 management titles are amongst other facilities available.

IIPM believes that an energized body can recharge the mind to think beyond the obvious. Hence, it has enough arrangements to boost the spirits of the students through its recreation centre in the basement. Sipping through hot chocolate milk from

the cafeteria, the students can either gather around a game of checkers or chess or unwind themselves over a game of pool or table-tennis. There are some more indoor games available at the centre for student recreation.

## Faculty:

Faculty forms the core of any institute's growth. Great teachers can lead their students to achieving greater goals. And IIPM, Ahmedabad, takes this attitude to a benchmark high by choosing world class teachers for their students. People from both the industry and academia visit the campus regularly to conduct different lectures related to various disciplines in management.
