

From a sleepy suburb of Delhi, Gurgaon has come a long way to be noted as the Millenium City. With rampant growth, rapidly changing skylines, Gurgaon is a city where every corporate – Indian and MNC wish to have an address. The growth of the city has also been boosted by the ever booming service sector – mainly IT and ITES - over the past one decade. Since the city offers a great potential to offer academic and intellectual growth to graduates and undergraduates, IIPM decided to start its operations in this city in 2008 through its twin towers located in the premium Institutional Area in sector 32, off the Delhi Jaipur highway.

Infrastructure:

IIPM Gurgaon offers world-class infrastructure, highly qualified and dedicated faculties and excellent environment for academic and intellectual growth. The Institute has a well stocked and furnished library, well equipped

labs, facilities for indoor and outdoor games and sports, wide open spaces, lush green lawns and colorful flowerbeds. The campus currently has 10 operational classrooms, which are completely furnished with the required presentation infrastructure. The entire campus is Wi-Fi enabled, including the library and cafeteria. At IIPM Gurgaon campus, one can find students and faculty members from diverse states and backgrounds, bringing variety of experiences and culture which add to their knowledge base. The Institute focuses on comprehensive growth of the students with special emphasis on communication skills and personality development; it addresses to their academic, cultural, physical and social needs in an environment of continuous interaction and growth, conducive for the enrichment of mind and body.

Dean : Prof. Sumanta Sharma

Faculty:

Although many of the faculty members at IIPM Delhi also take regular lectures at IIPM Gurgaon, but the centre has also built a strong, independent resource of faculty members, who visit the campus exclusively. Most of the faculty members coming from the corporate background hold a professional qualification like MBA or CA. Many among the rest, who are academicians, teaching elsewhere as well, hold a doctoral degree. IIPM has always put in a lot of emphasis in identifying the best of academic and intellectual brains to come down to the campus to deliver lectures with our students. The commitment of these faculty members inspire our students further to perform and move ahead in their quest for self development and growth. Apart from taking regular lectures, faculty members are also engaged to mentor the students in deciding their choices of career and are also allowed to encourage them for further intellectual development by engaging them in various academic researches and activities.
