

Dean : Prof. Manish Tiwari

IIPM Jaipur is one of the youngest IIPM campuses, starting its operations in 2009. The campus is centrally located near the landmark Rambagh Circle crossing – overlooking the magnificent Rambagh Palace grounds and the Sawai Mansingh Cricket Stadium. With IIPM's venture in the Pink City, the institute has provided immense scope and opportunity for many students across the state who have always wanted to be a part of IIPM. Additionally, Jaipur has been attracting a lot of fresh investments in the IT and services sector creating a lot of future career opportunities for management graduates. IIPM wants to contribute to this growth story by bringing about a paradigm change in the way management education is delivered in this part of the country.

Infrastructure:

IIPM Jaipur operates from a 5-storey state of the art tower located at the crossroads of Rambagh Circle, easily reachable from any part of the city within minutes. With a total coverage of around 21, 000 sq feet, IIPM Jaipur offers modern learning facilities to students on campus. The ground floor level houses the counseling desk and the administrative sections. Students are greeted by a capsule elevator in the middle of the building, which takes one up to 3 levels upwards. Two of these levels have been converted into classroom areas with a faculty seating area in every level. All these classrooms are air-conditioned, fitted with modern A/V equipments. The third level houses the gymnasium and the 150 seater auditorium. Higher up, one gets to visit the roof-top cafeteria serving snacks and meals for the

students and staff members. The library is housed in the basement, which stocks around 5000 management titles, magazines and journals. Apart from the library, there is also a mini computer drome, where students spend most of their time working on online research papers or referring to online resources while preparing for their assignments or essays. The entire campus is wi-fi enabled giving easy access to the students to the world wide web from anywhere at anytime.

Faculty:

IIPM in Jaipur has some of the best available faculty members in the city teaching at the campus. While the visiting faculties enlighten the students through various real life case presentations, the internal faculties dedicate a considerable amount of time to groom them to become complete individuals in the future. The institute commits to get the best faculties to teach its students and hence, spends a considerable amount of time to identify and select the right faculty for its students. This helps in maintaining the superior and world-class academic standard at the institute.

Faculty List

Anil Sharma - BA, LLB,
 Col R B Khanna - PGDM, B Tech, M.Sc.
