

Dean : Prof. Amlan Ray

The IIPM campus in Lucknow is one of the most sought after management centres in the city with an increasing intake of students every academic year. IIPM Lucknow started its first batch in the year 2009 and has already gained a respectable position in the academic and corporate fraternity in this city of Nawabs. With a prime location in Hazratgunj, considered the heart of the city, the institute is within close proximity to various government, corporate and institutional set-ups. With growing demand for fresh business and management executives in a state, trying hard to put its best foot forward in attracting more corporate investments, IIPM offers to meet the industry demand with well trained and well-qualified management graduates.

### Infrastructure:

The IIPM campus in Lucknow not only operates from one of the most centralised locations in the city, but also from one of the most modern and state of the art facilities. The 4-storey glass structure is an architectural marvel, located in an independent 0.5 acre plot with a basement parking. The building reflects sheer magnificence with blue tinted glasses and textured tiles scaffolding it from all sides. The ground floor houses the admission cum administrative block, while the upper floors have the classrooms. The library, which houses around 5000 latest management titles is located in the first floor. The cafeteria and canteen on the 2nd floor makes the floor busier than the rest, with students in groups or individually, spending long hours after classes, catching up with their friends or deeply engaged in self-introspection, planning out their career path. The campus houses 10 air-conditioned classrooms, each with LCD projectors and wifi-enabled. The campus has an auditorium with a seating capacity for about 150 people in the ground floor level, which has played host to several guest sessions and seminars of people from the academic world or representing regional industry bodies. The campus also provides space for students to participate in various indoor games and activities like pool, billiards, table-tennis, chess, or work out in the multi-gym under the able guidance of a gym instructor.

## Faculty:

The faculty members at the institute comprise experienced academicians, senior corporate executives and young talented professional MBAs. The class room sessions in IIPM are made rich by in-depth discussions on international research and case studies. Further, students under the able guidance of their faculty members, get engaged in various live assignments and projects.

## Faculty List:
